**CUSTOM DIMENSIONS**

Most preset dimensions that you find on the start page are not optimal for printing. If you don't set your dimensions, your final poster will probably be 18" x 24". Unless you are planning to have you file printed on our wide format machine (at least $3.50 per square foot), your design should be no larger than 13" x 19".

Dimensions are discussed more on the next page.

Create new design

## CREATE NEW DESIGN

• **Select "Inches"**
• **Enter Width & Height**
• **Click "Create New Design"**

Note: There are four common sheet sizes that we use:
  8.5 x 11
  11 x 17
  12 x 18
  13 x 19
If you want your artwork to be printed to the edge, this is called a "bleed". In this step, select the final size of the document. Do not select anything larger than 12x18 if you plan to have a bleed.

**BLEEDS
(Optional)**

**If you plan to have your design printed to the edge, you will select this option. This allows the final design to extend beyond the cut line.**

**Canva will add 1/8" to each edge of the page.**

**BLEEDS
(Optional)**

**Notice the the design now extends 1/8" beyond the paper. We will print this on 12x18. The final size will be 11x17 after we cut the bleed margin.**
