full bleed
cut line
safe

11” x 17”

Document Size - 11.25 x 17.25

To print to the edge after final cutting, (FULL BLEED) you must extend your image area at least to the box.
Any text or imagery will be cut off of the final piece if inside the box.

Keep ALL text within MAGENTA border to insure your text will not be trimmed

Please make sure all imagery and/or text is at least 300 dpi
for best results keep as close to 600 dpi as possible.

You MUST remove this layer or it will be printed!
