To print to the edge after final cutting, (FULL BLEED)  
you must extend your image area at least thru the  box.  
Any text or imagery within the  box will be cut off of the final piece.

Keep ALL text within **MAGENTA** border to insure your text will not be trimmed.

Please make sure all imagery and/or text is at least 300 dpi  
for best results keep as close to 600 dpi as possible.

**You MUST remove this layer or it will be printed!**
